The Alsbury Boulevard lane closures that were delayed due to the ice, snow, and freezing temperatures last week, will start Monday, Feb. 14.

Starting on Valentine's Day, the inside lanes of Alsbury, immediately west of the I-35W service road, will be closed during daylight hours for the construction of landscaping improvements to the median. These closures will only be in place during the day. All lanes will be open at night during the duration of the project. The project will last approximately two weeks. The start of the project, and the timeline, are dependent on the weather.
