If your weekday travels take you through the intersection of Wilson Street and Renfro Street in Old Town, there is a lane closure scheduled for next week.

Weather permitting, a contractor will be doing maintenance on the signal light at that intersection next to Burleson City Hall on Monday, Sept. 22, and Tuesday, Sept. 23. The right lanes on Renfro will be closed starting at approximately 8:30 a.m. on Monday.

The contractor is replacing the signal cabinet, which was struck by lightning, and installing a video detection system. The power will be off to the signal for approximately four hours. Temporary stop signs will be in place during the operation. The work is expected to take four-six hours on Monday and possibly the same timeframe on Tuesday.
