Burleson firefighters responded to a structure fire at a home in the 1000 block of Stockton at 3:55 p.m. on Friday, March 6.

Firefighters from Burleson and Crowley made a quick stop on the fire and rescued an adult female. CPR was performed on that female before she was transported to Texas Health Huguley Hospital in Fort Worth. She was then flown to Parkland Memorial Hospital in Dallas. As of 9:30 a.m. today, March 7, her condition has stabilized but she is in critical condition.

Burleson Fire Marshal Stacy Singleton and the Tarrant County Arson Task Force wrapped up the preliminary investigation of the structure fire shortly after midnight this morning, March 7. The fire started in the master bedroom. The cause is still under investigation, pending lab results and interviews with the residents. The second resident was not in the home when firefighters arrived. Information will be updated once the lab results and interviews are complete.
