Fire crews respond to residential fire
Burleson Fire Department battles fire in freezing temperatures.

At 1:37 a.m. on Monday, Dec. 19, Burleson Fire Department and Fire Marshal Department responded to a reported structure fire at 612 Bonnard's Peak. When units arrived on scene they witnessed heavy fire through the roof of the structure. The fire crew immediately deployed multiple attack lines. Mutual aid was provided by Fort Worth, Crowley and Joshua fire departments. Two occupants were home when the fire started but were able to get out before rescue crews arrived. The wind conditions created a very fast moving fire which caused the home to be fully engulfed within a few moments resulting in a total loss of the home.

The Fire Marshal Department is investigating the cause of the fire.
