### **Storm debris cleanup**

*Residents will be able to place storm debris at the curb regardless of their zone for the next 30 days.*

Storm cleanup things to know:

- For the next 30 days, residents can place storm debris at the curb regardless of their zone
- The debris will be collected by Progressive (city's waste management contractor) as quickly as possible
- If it happens to be your zone week the storm debris will be collected per that program
- Storm debris needs to be separated into two piles: brush, limbs & yard waste in one pile and fencing and other debris in another.

Please keep in mind that Progressive has several cities that they provide collections for so this additional service will be based on available equipment, staffing and time but the city has requested collections on available days from all zones, including on Saturdays.

Not sure what zone you are or when your normal bulk collection day is? Check out the city's ReCollect app.

For additional questions please contact the public works department, (817)426-9830.
