

Offense reports are available by filling out an open records request either in person at the Police Department or online through the City Secretary Department on the city website. Once the request has been submitted the response to the request may take up to 10 business days. The response can be picked up in person, faxed or emailed if the appropriate information is provided. Cost of the response is determined by the amount of information being released and how the response is being received. For more information call 817-426-9906.
