

## KidZone Opening June 15

We are excited to open our KidZone but want all of our members to be aware of our procedure and rule changes due to COVID-19. Space will be limited, we encourage you to make your KidZone reservation prior to making your workout reservation to ensure your KidZone spot is reserved first. With the facility capacity increased to 50% we do not foresee the max capacity being met for workout reservations. Please read through the list below and contact [asmith@burlesontx.com](mailto:asmith@burlesontx.com) for questions.

### KidZone Procedures

- Five (5) children per room (10 total) per hour (reservations highly recommended).
- One (1) hour maximum.
- One (1) staff member in each room and one (1) staff member dedicated to cleaning.
- Fragrance-free cleaning products will be used for cleaning while children are present.
- All children and parents will have temperatures taken in the lobby before entering the KidZone.
- One (1) family may check into the KidZone at a time, all other families will wait in the lobby.
- Items from home will not be allowed in the KidZone, this includes food.
- Toys and books will not be used due to the constant turnover of children each hour. Movies will be playing for the children during their 1 hour time slot.
- If your child becomes ill while in KidZone: we will call you over the intercom immediately, quarantine your child with staff member in second KidZone room, and move all other kids to first room. You will need to check out your child and then pick up your child through emergency exit door in second room. Cleaning will then be done to all surfaces immediately and all parents of children present will be notified at pick-up (names of sick children will be kept confidential).
- **Self-screen for any of the below symptoms.** Any child who has any of the following new or worsening signs or symptoms will not be permitted into the KidZone:

- Cough
- Shortness of breath or difficulty breathing
- Chills
- Repeated shaking with chills
- Muscle pain
- Headache
- Sore throat
- Loss of taste or smell
- Diarrhea
- Feeling feverish or a measured temperature greater than or equal to 99.6°F
- Known close contact with a person who is lab-confirmed to have COVID-19
